Buist's Superior Bulbs

—FOR FALL PLANTING—

THE first step in successful bulb-culture is to secure **good bulbs**—of good size, clean, sound and solid. To secure such, you must be willing to pay a **fair price**. We wish to warn our patrons against buying bulbs that are sold at "bargain prices;" such usually have been carried over in cold storage from the previous season, or have been planted out in Spring, then dug in the Fall and sold at a low price. You can not get fine flowers from such bulbs. We have our bulbs grown **especially for us** by the **most competent** growers of **Holland and France**, and our stocks are strictly true to name and color. Whether you buy a dozen or a thousand of **Buist's Bulbs**, we know you will be satisfied.

Suggestions for Growing Hyacinths and Other Bulbs

We would emphasize the fact that Autumn is the time to plant all kinds of Spring-flowering bulbs. The best time is from the middle of September until the ground is frozen hard. Most varieties of bulbs are ready to ship about the second week in September; the sooner they are planted after that date, the greater will be your success. Therefore we advise ordering early.

Outdoor Culture. The bulbs should be planted in October and November, so the roots may make a good growth before cold weather comes on; they can, however, be set out later if the ground is not frozen too hard. The soil should be moderately rich, or made so with well-rotted manure or bone-meal; fresh manure should not be used, as it will injure the bulbs. Good results cannot be obtained without free drainage. The common plan is to dig up the soil to a depth of about 6 inches, and then fill in with a couple of inches of sand or gravel. The bulbs can be planted on this, and surface soil filled in over them.

Indoor Culture. Bulbs intended for blooming indoors can be planted from September until November; the earlier they are potted the better. After potting, the bulbs should be set in the open air, covered with a few inches of ashes or soil, and permitted to remain outside until freezing weather; then be brought into a cool green-house, cellar or room where the temperature will not go above fifty degrees. An occasional watering will be required after they are brought inside. If not possible to put the bulbs outdoors, the pots may be placed in a cool cellar, well watered and covered as indicated above. If the roots are well developed, the bulbs can be brought into a cool room, and the foliage and flower-spikes will develop quickly. By following these directions, one can have a supply of flowers until after Easter, if the pots are brought to light at intervals of two or three weeks.

Growing Hyacinths in Water. A novel way to grow Hyacinths is by setting them in glasses, just allowing the bottom of the bulb to touch the water, then placing the glass in the dark until the bulbs are thoroughly rooted. The water should be changed every ten days, and a small piece of charcoal placed in the bottom of the glass will prevent the water from becoming foul.

Postage and Express Charges. We deliver **Free** all Bulbs (except when noted) purchased by the single bulb or dozen. Quantities quoted by the 100 and over (except when noted) will be forwarded by Express at purchaser's expense. Express charges are, as a rule, cheaper than Parcel Post on larger shipments. Not less than six bulbs supplied at dozen price, and 25 at the 100 price. **Seeds** will be sent **Free** by Mail or Express (except when noted).

Extra-Selected Named Dutch Hyacinths

TO BE PLANTED THIS FALL FOR WINTER AND SPRING FLOWERS

The bulbs may be planted in the garden at any time from the middle of September to December; but, as with other bulbs, the earlier the better. They will grow in any well-drained garden soil. The bulbs should be set so that the tops will be 3 or 4 inches below the surface and from 6 to 10 inches apart. In December, before severe weather comes on, it is well to cover the bed with straw, leaves, or litter, to protect them from "heaving" when the frost comes out in the Spring; care should be taken that this mulching is not made too thick, for the bulbs will be injured by being kept too warm as well as by severe freezing. The mulch should be removed in early Spring when danger from frost is past.

For indoor blooming, plantings may be made at any time during the Fall, although October is the time usually selected. A light soil, well fertilized, is most suitable. Use a 4- or 5-inch pot, and set the top of the bulb just above the surface of the soil. Give a thorough watering, and set in a cool cellar, covering with coal-ashes or litter until thoroughly rooted, which will be from six to eight weeks. Be careful that the bulbs do not become dry during the time they are in the dark. The pots may be brought to the light in a cool room and, as the spikes are fully developed, they may be placed in a warmer temperature. The varieties offered in this list have been selected for their distinct colors and for their delicate shades. Practically all of them are uniform in height.

Single Red, Rose and Pink

General de Wet. An exquisite shade of soft pink; very large spikes; charming in every way.

Gertrude. Deep rose; large, compact truss. A splendid and popular variety for bedding, as it stands very erect.

Gigantea. One of the best blush-pink varieties. Very large truss.

Lady Derby. Delicate pink, spike tall and well filled.

La Victoire or Victory. Brilliant rosy-red; good bedder and fine forcer.

Marconi. Rich rose-pink; early.

Queen of the Pinks. A beautiful delicate pink; large bells and spike.

Roi des Belges. Brilliant crimson-scarlet; a grand bedder.

Single Pure and Tinted White

Arentine Arendsen. Pure snow white; large bells; early.

La Grandesse. This is the finest pure white, finely shaped spike, bells of great substance; magnificent.

L'Innocence. The most popular of the pure whites; extra-fine spike, always produces good flowers.

Grande Blanche. Soft blush-white; very large spikes.

General Vetter. Blush-white.

Queen of the Whites. Pure white.

Single Blue, Lavender and Purple

Enchantress. Very delicate porcelain-blue.

Grand Maitre. The most popular of the deep porcelain-blues; very large truss.

King of the Blues. Dark blue; splendid truss.

Perle Brilliant. Light pearl-blue; makes perfect spikes of largest size.

Queen of the Blues. Clear silvery azure-blue.

Single Yellow Shades

King of the Yellows. Rich deep yellow.

Yellow Hammer. The best golden yellow; fine variety.

Prices: All of the Extra-selected Named Single Hyacinths, at the uniform price of 20 cts. each, \$2.25 per doz., \$16.00 per 100. Six bulbs of one variety at dozen rate.

SPECIAL OFFER

Twelve First-size Single Named Varieties Hyacinths in distinct shades of colors (see inside back cover) delivered FREE, by Express or Parcel Post, anywhere in the United States for \$2.25.

SINGLE LIGHT BLUE HYACINTH

SINGLE WHITE HYACINTH

HYACINTH IN GLASS

Extra-Selected Named Double Hyacinths

While Double-flowering Hyacinths do not, as a rule, produce so fine spikes as the single sorts offered on page 1, yet they are exceedingly handsome, and deserve extensive cultivation.

Boquet Tendre. Dark carmine-red, good spike.

Blocksberg. Finest light blue; very large, compact spike.

Chestnut Blossom. Light pink, large spike and bloom. Good bedder.

Garrick. Bright blue, fine bells; early.

Isabella. The finest double blush-white; large bells and spike.

La Grandesse. The double white form of the grand single pure white.

La Tour d'Auvergne. Earliest pure white grand spike; extra.

President Roosevelt. Deep rose-pink, producing a very large truss.

Sunflower. The finest double pure yellow.

Price: All of the Extra-selected First-size Named Double Hyacinths at the uniform price of 20 cts. each, \$2.25 per doz., \$16.00 per 100.

Mixed Dutch Hyacinths, Separate Colors

Our mixed Hyacinths should not be confounded with the small-sized, low-priced mixtures often sold. Our bulbs are all good-size flowering bulbs and will give excellent satisfaction. Being furnished in so many separate colors, splendid bedding effects may be produced with them. They are also admirably adapted for forcing in the green-house for Winter cut-flowers.

SINGLE		DOUBLE	
Dark Blue	Pure White	Dark Blue	Pure White

Prices: Mixed or separate colors of the above Single or Double Hyacinths, 13 cts. each, \$1.35 per dozen, \$10.00 per 100

Six of a color at dozen rate, 25 of a color at 100 rate

Single bulb and dozen prices postpaid—100 rate at purchaser's expense

DOUBLE HYACINTH

WHITE ROMAN HYACINTHS

French Roman Hyacinths

Slender and graceful, about one-half of the diameter of ordinary Hyacinths, these French Romans are the earliest bloomers of all Fall bulbs and may be readily grown by the most inexperienced in pots of soil or in water and pebbles. Planted in September they flower from Thanksgiving to Christmas time and a succession may be had by potting the bulbs at intervals. Most bulbs throw up from three to five spikes of bloom which follow each other in flowering. Three bulbs may be planted in a 5-inch pot. Each order should include at least a few of these bulbs. We do not recommend them for outdoor planting.

	Each	Doz.	Per 100
White, Select Size.....	\$0 20	\$2 00	\$14 00

Dutch Roman, or Miniature Hyacinths

These are small bulbs of the single-flowering Dutch Hyacinths, and quite distinct from the French Romans, and excellent for growing in pans, pots, or boxes, blooming early and freely. They may be planted close together in the pans, pots or boxes, or in beds in the open ground with charming effect. The bulbs we offer are 12 centimeters and over in circumference and must not be confounded with smaller unnamed sorts.

Gertrude. Deep rose.	La Grandesse. Snow-white.
Gigantea. Soft blush or shell-pink.	L'Innocence. Purest white.
Grand Maitre. Deep porcelain-blue.	Lady Derby. Delicate pink.
Grandeur a Merveille. Blush-white, large bulbs and truss.	La Victorie. Rosy red.
King of the Blues. Rich, deep blue.	Queen of the Blues. Silvery blue.
	Yellow Hammer. Pure yellow.

Price: Any of the above-named varieties, 10 cts. each, 90 cts. per doz., \$6.75 per 100

Single Early Tulips

The Tulips are the most popular of all Spring-blooming bedding plants. For beauty of form and brilliancy of color, they have no equal. The most striking effects can be produced by massing contrasting colors. The single sorts are particularly good for pot culture, and will come into bloom about the middle of March.

The cultural directions given for Hyacinths will apply equally well to Tulips, excepting that the bulbs should not be planted quite so deep. Four inches to the bottom of the bulb is deep enough, and 5 or 6 inches between the bulbs is sufficient. A little sand around each bulb is desirable for pot culture. Two parts of loam with one of light manure and a little sand is most suitable. In a 5-inch pot three to five bulbs may be used. The pot should be covered in the same manner as recommended for Hyacinths.

May Flowering or Cottage Garden Tulips

This beautiful single, late blooming, class of Tulips are now becoming very popular. They remain in fine condition much longer than the earlier classes and are most desirable for brilliant and lasting displays. Very hardy and especially adapted for permanent hardy flower borders where they should be planted in large clumps and masses. For cutting, they are greatly prized on account of their long stems and graceful habit.

	Doz.	100

Dutch Breeder Tulips

(May-Flowering)

Breeder Tulips are very similar to the Darwins in their tall, stately growth, but have an entirely different range of colors. The colors include many rare among flowers, comprising bronze, terra cotta, purples, dull gold, blue blacks, and other rare shades not found in any other Tulips.

	Doz.	100
Apricot. Apricot orange with yellow border.....	\$0 90	\$6 50
Bronze Queen. Soft golden bronze.....	50	3 25

PARROT TULIPS

Parrot Tulips

Their fringed and corrugated petals, with their wonderful variation in color, make these not only the most brilliant but most curious of all Tulip flowers. Flowering at the same time as the other late sorts, they are entirely distinct from any other; the flowers are thick-petaled, with extra-long stems, and keep extremely well after being cut.

	Doz.	100
Constantinople. Orange-scarlet, with black markings.....	\$0 60	\$4 00
Gloriosa. Orange and red.....	60	4 00

DARWIN TULIP, CLARA BUTT

Collection of Darwin Tulips

We will mail postpaid as follows:

3 each of the 32 varieties,	96 bulbs.....	\$4 00
6 each of the 32 varieties,	192 bulbs.....	7 00
12 each of the 32 varieties,	384 bulbs.....	13 00
25 each of the 32 varieties,	800 bulbs.....	25 00

Planting Table

The table below shows the number of bulbs required to fill a circular bed of the dimensions given.

Diameter of Bed	3 in. apart	4 in. apart	6 in. apart	8 in. apart	10 in. apart	12 in. apart
3 feet.....	125	95	36			
4 feet.....	220	125	60	36	24	20
5 feet.....	330	225	90	70	36	25
6 feet.....	470	270	125	80	50	36
7 feet.....	630	410	170	96	70	48
8 feet.....	820	470	220	125	85	60
9 feet.....	1025	650	270	156	110	75
10 feet.....	1260	720	330	190	125	90

A square bed will take about the same number of bulbs. For an oval bed add length and breadth and divide by 2.

Giant Darwin Tulips

“The Tulip Aristocrats”

We strongly recommend this class of Tulips for the Southern States

These beautiful May-flowering Tulips produce immense flowers on tall sturdy stems and have been well called “The Tulip Aristocrats.” They are growing in popularity by leaps and bounds, embracing almost every shade. No painter’s brush can adequately render all the sunrise and sunset tints marking this superb class. They must be seen in their own beauty to be appreciated. On long sturdy stems rise the gigantic flowers in every conceivable shade and of the most exquisite forms. If you want one spot of intrinsic beauty in your garden, plant these Tulips.

A characteristic of the Darwin is that the color inside the flower is as bright and sometimes brighter than the outside. It is in this class we find the celebrated Black Tulip and a few near whites, but no yellow, and for this the May-flowering Tulips Inglescombe Yellow, offered on opposite page, supplies the absent color perfectly. For splendid effect in borders and planted in small groups amongst shrubs, they are unsurpassed, unexcelled for cutting, growing from 22 to 24 inches high. They are perfectly hardy and can be left for years undisturbed and bloom magnificently every season. Plant 5 to 6 inches deep, and 5 to 6 inches apart each way.

	Doz.	100
Afterglow. Clear dark salmon shaded orange, edged light orange	\$0 90	\$6 50
Baronne de la Tonnaye. Bright purplish rose, toning off to a soft pink.....	45	3 00

Buist’s Special Mixed Darwin Tulip. A superb mixture made up by ourselves from a number of selected named varieties.....	45	3 50

Buist's Narcissus or Daffodils

The importation of Narcissus is now prohibited by the government. The bulbs we offer are Northern grown under climatic conditions similar to Holland. They have been government inspected; are superior to Southern grown stock, which has a tendency to become soft and we believe they will prove equal to and give the same satisfaction as the imported stock.

Possibly no Spring-blooming bulbs are more popular than the Narcissus. They may be grown either indoors or out. The varied forms, from the dainty *Narcissus poeticus* to the great trumpet-shaped flowers of Emperor, offer the gardener a selection of flowers that can be had with no other bulbs. The bulbs can be grown in any garden soil, or planted in groups among perennials or shrubs. Once planted, they need no further attention, and will increase in strength and beauty from year to year. The flowers have a great range of color-combination from pure white to deep orange-yellow; from rich yellow trumpet and snow-white perianth to sulphur-white trumpet and yellow perianth. For indoor blooming Narcissus may be treated in the same manner as hyacinths.

Large Trumpet Narcissus, or Daffodils

Emperor. A magnificent flower; perianth deep primrose, trumpet rich golden yellow. Should be largely grown in flower-beds, borders, or naturalized in grass. 15 cts. each, \$1.40 per doz., \$10.00 per 100. Extra large bulbs, 18 cts. each, \$1.70 per doz., \$12.00 per 100.

Empress. Perianth snow-white, trumpet rich yellow, serrated and flanged at the edges, and of rare beauty for cutting. 15 cts. each, \$1.40 per doz., \$10.00 per 100. Extra large bulbs, 18 cts. each, \$1.70 per doz., \$12.00 per 100.

Giant Princeps. One of the most popular; perianth sulphur-white, trumpet rich yellow. 12 cts. each, \$1.25 per doz., \$8.00 per 100.

Golden Spur. Large, spreading, full, deep, rich, yellow perianth and trumpet. A charming, richly perfumed flower, and one of the best of the Trumpets, flowering early. 15 cts. each, \$1.40 per doz., \$10.00 per 100. Extra large bulbs, 18 cts. each, \$1.70 per doz., \$12.00 per 100.

Glory of Sassenheim. Perianth sulphur yellow, trumpet bright yellow. Very large flower of great vigor and substance, long stem and very fragrant. 15 cts. each, \$1.40 per doz., \$10.00 per 100.

NARCISSUS, GOLDEN SPUR

King Alfred. "The King of Daffodils." The finest of the giant golden yellows. Flowers of extra size and great substance. Golden yellow, perianth, trumpet of beautiful form with deeply frilled mouth. 30 cts. each, \$3.25 per doz., \$25.00 per 100.

Victoria. Trumpet rich golden yellow, perianth creamy-white, delicately perfumed. Fine for forcing. 18 cts. each, \$1.70 per doz., \$12.00 per 100.

Medium Trumpet Narcissus

Sir Watkins (Giant Chalice Flower). Primrose perianth, crown yellow; tinged bright orange. This is the largest and most popular of the short cup Narcissus, perfectly hardy and recommended for growing in pots, beds or borders. Extra large bulbs, 18 cts. each, \$1.70 per doz., \$12.00 per 100.

Barrii Conspicuous. Large, soft, yellow perianth, short cup, edged orange-scarlet. A popular and distinct variety. 12 cts. each, \$1.25 per doz., \$8.00 per 100.

Double Narcissus or Daffodils

The Double Narcissus, or Daffodil, is becoming more popular every year. It is hardy in every way, and thrives most anywhere. It can also be used for forcing, for which purpose it is highly desirable. Planting in a pan or pot anywhere from three to twelve bulbs, according to size of bulbs. After they have been forced and flowered they can be planted outdoors for another year's bloom.

Van Sion (*Telamonius plenus*). The true double Daffodil. The color is a pure golden yellow entirely. This is the old favorite so highly prized in old-fashioned gardens. It should be planted extensively for naturalizing. For forcing or outdoor planting it has no equal. First size bulbs 15 cts. each, \$1.40 per doz., \$10.00 per 100. Mammoth size bulbs, 18 cts. each, \$1.70 per doz., \$12.00 per 100.

Alba plena odorata. A sweet-scented, pure white variety called Double Poet's Narcissus; it flowers later than many of the other Daffodils, and is not desirable for forcing. 10 cts. each, \$1.10 per doz., \$8.00 per 100.

Orange Phoenix. Large double flowers, light yellow, almost white, with a yellow center. It is splendid for forcing or pot culture. This is sometimes called "Eggs and Bacon." 15 cts. each, \$1.40 per doz., \$10.00 per 100.

Single and dozen prices include postage. The 100 rates and over are at purchaser's expense.

SINGLE NARCISSUS, EMPEROR

NARCISSUS, PAPER-WHITE GRANDIFLORA

Poetez Glory. Snow white flowers of perfect form, cup yellow edged white. 15 cts. each, \$1.40 per doz., \$10.00 per 100.
Poeticus. (Pheasant's Eye.) The old-fashioned Poet's Narcissus. 10 cts. each, 85 cts. per doz., \$6.50 per 100.

Polyanthus Narcissus

The flowers of this class of Narcissus are deliciously sweet-scented and are suitable for the window garden and the conservatory. The bulbs are of the easiest culture, and produce flowers very freely, on long stems bearing from six to a dozen blooms each. The pure white petals and gold cups of some varieties, in contrast with the yellow petals and orange cups of other sorts, are very beautiful. In the South they are hardy. Can be grown in pebbles and water in the same manner as the Chinese Lily.

Paper-White Narcissus

This variety is unquestionably superior to the Chinese Lily for growing in water; flowers are larger, intensely fragrant; produced very freely and are attractive in color. The bulbs will bloom sooner than those of the Chinese Lily, in fact, they have been forced to bloom in twenty-six days after planting, and may be grown in the same manner as the Chinese Lily.
Selected Bulbs—12 cts. each, \$1.15 per doz., \$8.00 per 100.

Golden West Narcissus

A most showy and beautiful flower. Color is a fair dazzling golden yellow, the eye being of a still deeper yellow. They can be grown in the same manner as Chinese Lilies. A bunch of them brings a golden sunshine into the darkest days of winter. Nothing more exquisite as a companion to the Paper-White, the only difference being in the color. A few bulbs started at intervals will give a succession of flowers throughout the winter months. 20 cts. each, \$2.10 per doz., \$14.00 per 100.

Grand Soleil d'Or. Sometimes called "Yellow Paperwhite." Flowers rich yellow with bright orange cups. Excellent for forcing indoors. 20 cts. each, \$2.10 per doz., \$14.00 per 100.

Poet's Narcissus

This is the old-fashioned favorite type, with white flowers, the cups margined with red, and with rich, spicy odor. They are perfectly hardy, and once planted take care of themselves.

Poeticus Ornatus. Flowers large, pure white, cup margined with scarlet, especially adapted for forcing. 10 cts. each, 85 cts. per doz., \$6.50 per 100.

Jonquils

These are small-flowering types of Narcissus, and prized for the fragrant blooms and the ease with which they may be grown. Liberal planting should be made outdoors in groups of twenty-five or more, or the bulbs may be scattered among the shrubbery, in the hardy border, or naturalized in the grass.

Campanelle Rugulosus. The largest and finest of all Jonquils; a handsome flower; color pure yellow; very fragrant. 12 cts. each, \$1.25 per doz., \$8.00 per 100.

Campanelle Plemus. (Double Campanelle Jonquils). Very double deep golden-yellow flowers, highly fragrant. 12 cts. each, \$1.25 per doz., \$8.00 per 100.

Freesia

The justly popular Freesias are greatly prized for the delightful fragrance of their delicately colored flowers, which, when cut, will remain in good condition for a long time in water. They are easily grown or forced in good loamy soil, with an admixture of leaf-mold and sand, in a frame or green-house, and are excellent for window culture in Winter. For the information of all not acquainted with these bulbs, we may say that they are quite small, but produce large blooms in comparison to their size.

Freesia, "Purity." Magnificent, glistening, pure white flowers of large size, borne on strong, lengthy stems, each truss bearing eight to ten buds, five to six of which are frequently open at the same time.

	Doz.	100
Select Bulbs	\$0 35	\$2 50
Mammoth Bulbs	50	3 50

Rainbow Mixture. A new strain of colored Freesias, comprising a number of lovely and beautiful shades of pink, purple, blue, yellow and lavender. Very fragrant. 3 for 20 cts., 65 cts. per doz., \$4.50 per 100.

California. Bright golden yellow. A strong grower with long stems. 3 for 25 cts., 75 cts. per doz., \$5.50 per 100.

Splendens. Pure lavender. 3 for 25 cents., 75 cts. per doz., \$5.50 per 100.

FREESIA

Chinese Sacred Lily

This variety of Polyanthus Narcissus is the Sacred Lily, or Joss Flower, of the Chinese, and has been cultivated for ages in the Orient. The flowers are clear white with yellow cup, and the culture is very simple. They are grown in water in bowls, with just enough pebbles to keep them from toppling over. Excessive heat produces quick growth, but will blight the buds, and they will not bloom. Fill the dish with water and set in a cool, dark room until the bulbs are well rooted, when they should be brought to the light. To be flowered successfully, they should not be moved into a warm room until the buds are about to open. Water requires changing occasionally to keep it pure. Price, by mail, 20 cts. each, \$2.25 per doz., postpaid. By express, \$2.00 per doz.

Calla Lillies

White Calla. One of the most beautiful winter flowering bulbous plants. They require good rich soil, and if given water, heat, and light in abundance, the result will be most satisfactory. Plant with the crown or top protruding just above the surface, using 6 to 8 inch pots.

Select Size	Each	Doz.
Mammoth	\$0 30	\$3 00
	40	4 00

Godfrey Everblooming Calla. This new hybrid is a true everblooming variety. Compared with the ordinary White Calla it gives three flowers to one, equally as large, of perfect form and very much whiter. Strong bulbs, 25 cts. each; \$2.50 per doz.

Golden Yellow Calla. A most attractive variety; the rich golden yellow flowers are truly magnificent. The foliage is spotted creamy white. 30 cts. each; \$3.00 per doz.

Lilies

With the exception of *Lilium Harrisii*, all of the Lilies in this list are hardy, but it is well to protect them against frost by a covering of ashes or litter. *Lilium Harrisii* is the familiar Easter Lily, and these bulbs must be grown indoors; they should be potted from the first of August to the middle of September, if possible.

Lilium Harrisii

(True Bermuda Easter Lily) **READY IN AUGUST**

This Lily is now so well known that it needs no description. It is undoubtedly one of the most popular flowers ever used for forcing. The bulbs we supply are of the highest quality obtainable and are perfectly true.

	Each	Doz.
Bulbs 6 to 7 ins. in circumference.....	\$0 20	\$2 25
Bulbs 7 to 9 ins. in circumference.....	30	3 25

LILIUM HARRISII

CHINESE SACRED LILY

Lilium Candidum

(Annunciation, or Madonna Lily)

This is one of the most popular of garden Lilies. The flowers are pure snow-white and very fragrant, borne on long stems. To insure success plant the bulbs early in the Autumn 6 inches deep, embedded in sand and placed on their side.

	Each	Doz.
Large Bulbs	\$0 30	\$3 00
Mammoth Bulbs	40	4 00

Hardy Japan Lilies

READY IN NOVEMBER

No garden can be complete without a fair display of these stately flowers. Plant the bulbs from 6 to 8 inches deep, they should be completely enveloped in sand and placed on their side instead of upright.

Auratum (Gold-banded Lily). Undoubtedly one of the finest. Its large, graceful, fragrant flowers are composed of six petals of a delicate ivory-white color, thickly studded with chocolate-crimson spots, and striped through the center a golden yellow; 3 to 5 feet; July to September. 35 cts. each, \$3.50 doz.

Speciosum Album. The Speciosum, or Lancifolium, are the most important of all the Japanese Lilies, always satisfactory; the variety here offered has large white flowers of great substance, with a greenish band running through the center of each petal. 35 cts. each, \$3.50 doz.

Speciosum Rubrum or Roseum. Delicate pink, almost white, spotted red; one of the old garden favorites. Flowers in August and September. 35 cts. each, \$3.50 doz.

Hyacinth Glasses

Hyacinths can be easily grown in water, giving good spikes of bloom. Hyacinth Glasses, assorted colors, 40 cts each, \$4.00 per doz. Cannot be sent by mail.

Pebbles

Carefully screened and selected for growing bulbs in water. 12 cts. qt., 45 cts. 4 qts., 75 cts. peck. Cannot be sent by mail.

CROCUS NATURALIZED

Miscellaneous Bulbs

Anemone

These are extremely attractive and showy flowers, brilliant in color and with elegant foliage. The Anemone is not quite so hardy as other bulbs, but if planted in October or November, and covered 1 to 3 inches deep in a moist, rich, well-drained soil, and then protected by leaves or litter, very beautiful flowers may be expected. If grown indoors put three or four bulbs in a 5-inch pot, using rich, porous soil. Keep the pots in a moist, cool situation until the roots are well started, when they may be removed to the room where they are desired to bloom. Give plenty of water.

St. Brigid. A new and greatly improved race of Irish production, bearing magnificent flowers, double, semi-double and single, 3 to 5 inches across and of the richest as well as the daintiest colors, markings, blendings, all having a distinct dark base. They have long stems, very graceful for vases. 3 for 30 cts., \$1.00 per doz., \$6.50 per 100.

Coronaria. Large beautiful saucer-shaped flowers. Mixed colors. 3 for 25 cts., 80 cts. per doz., \$6.00 per 100.

Crocus

One of the earliest flowers seen in the Spring. They are neat, dwarf and compact in growth, and the blooms are of bright colors. If planted closely—say 2 inches apart—and 3 inches deep, they make a very pretty display immediately after the snow goes off in the Spring. Do not disturb for several years. Should be largely planted in the grass on lawns. They will flower very early in Spring before mowing. The effect is beautiful. **Not less than one dozen sold.**

Chionodoxa (Glory-of-the-Snow)

One of the handsomest of our dwarf Spring flowers. Very hardy and if undisturbed come up every year, upon the first sign of Spring.

	Doz.	100
Lucilæ. Bright sky-blue.....	\$0 45	\$3 00
Sardensis. Rich deep blue.....	45	3 00

Eranthis Hyemalis
(Winter Aconite)

One of the earliest Spring flowers, the golden yellow blossoms forming a striking contrast to the Snowdrop, Scilla and Chionodoxa. 45 cts. per doz., \$3.00 per 100.

GRAPE HYACINTHS

Very beautiful little flowers for planting in masses, either in shade or where exposed to the sun. When planted out in herbaceous borders, where they can be left undisturbed, they do exceedingly well, each year adding to their already profuse-blooming qualities. Bloom outdoors during May. They are also excellent for pot culture.

Heavenly Blue. The bells are large and form a fine truss. Splendid effects are produced by massing in the garden or border. 40 cts. per doz., \$3.00 per 100.

Album. A very beautiful white form of the above and excellent to use for contrasting with Heavenly Blue. 70 cts. per doz., \$5.00 per 100.

Spanish Iris

These exquisitely beautiful Irises are perfectly hardy, of the easiest culture. They bloom early in June and grow 15 to 18 inches high. They have a great combination and variety of color in the same flower.

	Doz.	100
Belle Chinoise. Golden yellow.....	\$0 90	\$6 50
Cajanus. Clear primrose yellow.....	90	6 50
Flora. White and light blue.....	90	6 50
King of the Blues. Deep purplish blue.....	90	6 50
Mixed. All colors.....	75	5 50

Iris Filifolia

A strain of the Spanish Iris, but larger flowering and blooming earlier.

Imperator. Brilliant blue. 3 for 25c, 80c per doz., \$6.00 per 100.

Spanish Iris

Oxalis

One of the prettiest flowers for indoors. Easily grown. Plant 3 to 4 bulbs in a 6-inch pot or hanging basket, which should be kept close to the light.

Bermuda Buttercup. The flowers are of the purest, bright, buttercup-yellow.

Grand Duchess. A free-flowering variety of great beauty. Flowers from November till June. **Pink. Lavender. Yellow.**

Any of the above 3 for 15 cts., 40 cts. per doz., \$2.50 per 100.

Mixed. All colors. 3 for 15 cts., 40 cts. doz., \$2.50 per 100.

Scillas

(Squills, Wood Hyacinths, Blue-bells, etc.)

Siberica (Siberian Squill). Most beautiful of early Spring blooming bulbs, producing in profusion masses of small drooping bell-like flowers almost before the snow has disappeared. Fine for massing in borders or naturalizing, particularly valuable for rock gardens. They may also be grown in pots, six to eight bulbs to a 5-inch pot. Height 4 inches.

	Doz.	100
Siberica Blue	\$0 50	\$3 50
Siberica White. Very beautiful.....	50	4 00

Campanulata (Spanish Blue-bell or Wood Hyacinth). Bears spikes of beautiful flowers 15 inches high; fine for naturalizing in the woods, etc. Very effective for borders, will grow under fir or pine trees. Plant 5 inches deep.

	Doz.	100
Campanulata, White	\$0 50	\$3 50
Campanulata, Blue	50	3 50
Campanulata, Rose	60	4 00

Snowdrop

The Snowdrop is one of the earliest flowers to greet us with their nodding blooms, which are borne on stems about 6 inches high. They usually arrive with the disappearance of the snow. They may be planted over the lawn or in masses as in the case of the crocus.

	Doz.	100
Single	\$0 50	\$3 25
Double	60	4 00
Elwes' Giant-flowering	55	3 75

Oxalis, Scillas and Snowdrops mailed without extra charge.

Buist's Peonies

Peonies take rank as one of the most beautiful hardy perennials. They have found so many lovers within the last few years that no garden is now complete without these gorgeous blooms. Avoid planting too deeply, as this is often the cause of shy blooming; 2 to 3 inches of soil over the crown being sufficient.

Edulis Superba. Large; loose, flat crown. Beautiful bright clear mauve pink with silvery reflex. Early. Strong, upright; free bloomer. One of the best commercial pinks for Decoration Day. 60 cts. each.

Felix Crousse. Large; globular; typical bomb; brilliant red. Strong, vigorous grower; medium height; free bloomer. One of the best reds. 75 cts. each.

Festiva Maxima. Very large; globular, rose type; pure white center, prominently flecked crimson, outer petals sometimes faint lilac-white on first opening. Very tall, strong, vigorous grower. Early. The most popular white variety in cut-flowers. 60 cts. each.

Karl Rosenfield. Brilliant deep crimson, large full flowers on long stiff stems. \$1.00 each.

Madame Ducl. Lilac pink with silvery reflex, excellent flowers and stem. 65 cts. each.

Madame Emile Galle. Delicate shell pink with touches of heliotrope and lavender. 75 cts. each.

Mons. Jules Elie. A very popular early variety, color pale lilac rose with silvery reflex, very fragrant. Medium height and a very prolific bloomer. \$1.00 each.

Reine Hortense. Soft flesh pink, deepening to shell pink, with crimson splashes. Well formed flowers of striking appearance; fragrant. \$1.00 each.

Rubra Superba. Large, deep rosy crimson; one of best late varieties of its color. 75 cts. each.

Special Offer—We will mail postpaid one each of the above Peonies for \$6.00.

Prepared Bulb Fibre

For growing bulbs in vases, bowls, etc., without drainage. Before using the material it should be thoroughly moistened and the bulbs planted the same way as if soil were used. Once planted they require hardly any attention, only great care should be taken to keep the compost moist, but it must not be too wet. Sent only by express or freight, at customer's expense. 4 qts. 45 cts., peck 75 cts., bushel \$2.00.

NARCISUS, NATURALIZED

Buist's Lawn Grass Seeds

AUTUMN SOWING PRODUCES A LASTING TURF

The Fall season, from August 15th to October 15th, is the best time to sow Lawn Grass Seed. The Fall rains hasten germination and enable the roots to become well established before freezing weather sets in. Growth is resumed with the first thaws of early Spring and the roots are strengthened while seed sown in the Spring is just undergoing germination. A lawn grown in this way will endure Summer droughts better than a Spring sown lawn. One quart is sufficient for 100 square feet, 4 to 5 bushels for an acre or for renovating old lawns, about half that quantity.

Buist's Evergreen Lawn Grass Seed. This mixture has long been famous for producing a succession of verdure throughout the year. It is composed of the finest varieties of grasses, each of which has its season of beauty, and the result of this blending is the producing of a sod that is not only always evergreen and velvety in appearance, but of the color and beauty of an emerald. Qt. 30 cts., 4 qts. \$1.00, pk. \$1.75, bu. \$6.50.

Buist's Central Park Lawn Grass. This variety is a combination that will produce a permanent and lasting turf, a good mixture, free from weeds and chaff, suitable for various soil conditions, always giving good results in light as well as heavy soil. Recommended for terraces and exposed places, also for reseeding bare places. Qt. 25 cts., 4 qts. 75 cts., pk. \$1.50, bu. \$5.50.

Buist's "Sunny South" Lawn Grass. A special preparation that will resist extremes of heat and drought; this mixture has given very satisfactory results and by proper care and continual watering a beautiful lawn can be had in the Southern States, where grasses do not usually thrive during the Summer months. Qt. 30 cts., 4 qts. \$1.00, pk. \$1.75, bu. \$6.50.

"Shady Nook" Lawn Grass Seed. It has always been very difficult to secure a grass seed mixture that would make a lasting growth in shaded places, especially under trees, but our Shady Nook mixture has overcome this trouble, and can be depended upon to supply this long-felt want; it is comprised of a selection of the finest grasses, which do especially well in shaded or sheltered situations and will quickly produce a fine sward. Qt. 35 cts., 4 qts. \$1.25, pk. \$2.25, bu. \$8.00.

Buist's "Seashore" Lawn Grass Seed. A special mixture of grasses peculiarly suited for seaside lawns, composed of strong rooted varieties which will quickly produce a good turf. Qt. 35 cts., 4 qts. \$1.25, pk. \$2.25, bu. \$8.00.

Buist's "Emerald Green" Lawn Grass Seed. A perfect blended combination of fine bladed, compact, quick growing grasses. The ingredients of this mixture are the highest grade of re-cleaned seed only, carefully proportioned to maintain a rich velvet green color from early Spring to late Fall. Qt. 35 cts., 4 qts. \$1.25, pk. \$2.25, bu. \$8.00.

Buist's Lawn Restoring Grass Seed. Compounded from grasses which take firm hold and grow rapidly on hard wornout lawns or on burnt spots. Seed may be sown with excellent results in the Fall. Qt. 35 cts., 4 qts. \$1.25, pk. \$2.25, bu. \$8.00.

Putting Green Grass Seed. Golf courses require a mixture of grass seed which will give a smooth, level, compact turf. Our long experience in the blending of grasses enables us to select those best adapted for this purpose. Buist's Putting Green Mixture, of fine high-grade grasses, will make a close, firm, green and lasting turf which will improve with use. Sow 5 bushels to the acre. Qt. 65 cts., 4 qts. \$2.25, pk. \$4.00, bu. \$15.00.

Fair Greens Golf Course Mixture. The grasses in this mixture will produce a rich green turf that will resist tramping and hard wear and will retain its color during the severest drought. Sow 5 bushels to the acre. Qt. 30 cts., 4 qts. \$1.00, pk. \$1.75, bu. \$6.50.

Buist's Winter Lawn Grass for Bermuda Sod. This preparation will give a beautiful green lawn all through the Winter while the Bermuda is dormant and disappearing. Rake or harrow the Bermuda sod in October or November to roughen the soil, and sow about forty pounds per acre, then rake or roll the seed in. 25 cts. per lb., postpaid. By freight or express, 10 lbs., 18 cts. per lb.; 100 lbs., 16 cts. per lb.

If wanted by mail, add postage to cover Parcel Post. One quart weighs about half pound.

General List of Buist's Garden Seeds

for Fall Sowing

The following list embraces the best varieties for Fall sowing. For a complete list of Buist's Garden Seeds, see our Garden Guide, a copy of which will be mailed on application.

Buist's American-Grown

Cabbage Seed

Culture.—For Fall and early Spring setting, sow from the end of September till the first of January—November and December sowings should be made in coldframes or hotbeds so as to protect them during the Winter. Plants from early Fall sowing can be set out the end of October or during November to head up early in the Spring. Plants that are wintered over should be set out in February, March or April, as early as the weather will permit.

Mushroom Spawn

The principal cause of failure to grow Mushrooms is from using old spawn. The finest spawn is **Lambert's Pure Culture Spawn**, prepared for us in brick form.

Mushrooms can be grown much easier than is generally supposed. They can be raised in a cellar, shed, cave or quarry, or even in beds prepared in the open air in the same manner as hotbeds. Procure fresh horse manure (free from litter or straw), and old pasture soil; mix thoroughly in proportion of three parts horse manure to one of loam; turn daily until the extreme heat is out of it. Then select the location for growing them; make out of this compost a bed 4 feet wide, 8 inches deep and as long as desired, pressed solidly. Leave this until the heat subsides to 90 degrees, then plant pieces of spawn the size of a walnut in holes 2 or 3 inches deep, 6 inches apart each way; cover with the compost, and in the course of a week or ten days the spawn will be diffused through the whole bed. Now cover with 2 inches of fresh soil, and over this spread 3 to 4 inches of hay, straw or litter. If surface becomes dry, wet with lukewarm water. Keep an even temperature of 50 to 60 degrees. It requires, on an average, six to eight weeks to produce mushrooms after the spawn is planted.

Pure Culture Spawn. Brick, 35 cts.; 5 bricks, \$1.50; 10 bricks, \$2.75; 25 bricks, \$6.50; 50 bricks, \$12.50. By mail—postage 10 cts. per brick extra.

"Buist's Mushroom Culture" free on application, telling how to prepare the mushroom bed and take care of the crop. If interested in growing mushrooms write for a copy.

Fertilizers

Pulverized Sheep Manure. Best Fertilizer for Lawn and Garden. This is a pure, natural, odorless fertilizer. Its effect is immediate, lasting, and it can be applied without risk. Excellent as a top dressing for lawns. There is nothing better for mixing with soil for pot plants; highly recommended for the vegetable garden, promoting a steady and rapid growth. Quantity to the acre, 1 ton; 10 lbs. to 300 square feet. It

makes a rich, safe and quick liquid manure. 1 lb. to 5 gals. of water. 5 lbs., 35 cts.; 10 lbs., 60 cts.; 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., \$3.50; 500 lbs., \$16.00; ton, \$55.00.

Buist's Pure Bone Meal. Better than Ground Bone for mixing with potting soil, as it is much finer and in better condition for giving immediate effect. 5 lbs., 35 cts.; 10 lbs., 60 cts.; 25 lbs., \$1.25; 50 lbs., \$2.25; 100 lbs., \$4.00; 200-lb. sack, \$7.00; ton, \$60.00.

Bone Flour. Ground perfectly fine; an excellent fertilizer for pot-plants or beds where an immediate effect is wanted. 5 lbs., 40 cts.; 10 lbs., 65 cts.; 25 lbs., \$1.40; 50 lbs., \$2.50; 100 lbs., \$4.50; 200 lbs., \$7.50; ton, \$65.00.

Buist's Lawn Enricher is an ideal fertilizer for the lawn. Acts quickly, goes direct to the roots and stimulates them to activity. The result is a beautiful dark green lawn, which will remain green and velvety all season. Broadcast at the rate of 400 to 600 pounds per acre. 5 lbs., 35 cts.; 10 lbs., 60 cts.; 25 lbs., \$1.10; 50 lbs., \$2.00; 100 lbs., \$3.50; sack of 200 lbs., \$6.00; ton, \$50.00.

If Fertilizers are ordered by Mail, please add postage to cover cost of Parcel Post.

ANTIRRHINUM (Snapdragon)

Antirrhinum (Snapdragon)

One of our most showy and useful border plants. The more recently improved varieties of this valuable genus are large, finely-shaped flowers of the most brilliant colors, with beautifully marked throats; they succeed in any good garden soil, and are very effective in beds. Extensively forced under glass, during the winter, and can be treated as a perennial in the South.

GIANT VARIETIES. 2 to 3 ft. high.

Scarlet	Pkt., 10c.
Yellow	Pkt., 10c.
Striped	Pkt., 10c.
White	Pkt., 10c.
Rose	Pkt., 10c.

COLLECTION. Packet each of above 40c.

Giant Mixed. ¼ oz., 40c.....	Pkt., 10c.
------------------------------	------------

SEMI-DWARF VARIETIES. 1 to 1½ ft.

Cottage Maid. Coral pink.....	Pkt., 10c.
Defiance (Bonfire). Russet Red.....	Pkt., 10c.
Fire King. Deep red.....	Pkt., 10c.
Golden Queen. Rich yellow.....	Pkt., 10c.
Pink Gem. Rose pink.....	Pkt., 10c.
Queen of the North. White.....	Pkt., 10c.
Scarlet King. Brilliant scarlet.....	Pkt., 10c.

COLLECTION. Packet each of above 50c.

Semi-Dwarf Mixed. ¼ oz., 30c.....	Pkt., 10c.
-----------------------------------	------------

Anemone (Wind Flower)

Charming double, single and semi-double flowers; all colors; hardy perennial; 2 ft.

Coronaria. Mixed colors.....	Pkt., 10c.
St. Brigid. Single and double.....	Pkt., 15c.

Aquilegia (Columbine)

Beautiful grotesque and varied-colored flowers, blooming freely in the Spring; hardy perennials; 2 ft.

Single Mixed. ¼ oz., 20c.....	Pkt., 5c.
Double Mixed. ¼ oz., 25c.....	Pkt., 5c.

Hardy Aster

These showy perennials may be easily raised from seed and make attractive autumn flowering plants. If sown early in the spring will flower the first season. 2 ft.

Mixed (Michaelmas Daisy).....	Pkt., 10c.
-------------------------------	------------

Achillea

Ptarmica, "The Pearl," 2 ft. Double white flowers in clusters. A very desirable hardy perennial.....Pkt., 10c.

Flower Seeds for Fall Sowing

Splendid results can be obtained by sowing the following varieties of Flower Seeds in the fall. Sown in a cold frame or a protected corner of the garden, you can have an abundant supply of early blooming flowers the following spring, as the plants from autumn-sown seed become larger and more robust, flowering earlier and more numerous than if sown in the spring.

Aconitum (Monk's Hood)

Napellus Blue. Panicles of helmet-shaped flowers. Perennial. 4 ft.....Pkt., 10c.

Agrostemma

An attractive free-flowering hardy perennial producing flowers on long slender stems like a single pink, blooms first season.

Coronaria, Rose Campion. Pink.Pkt., 10c.

Alyssum

Saxatile Compactum. New. (Basket of Gold.) An ideal hardy perennial plant, flowering in May; silvery foliage with showy golden yellow flowers; blooms the first season if sown early indoors; 1 ft. ¼ oz., 40c.....Pkt., 10c.

Bellis Perennis

(English Daisy)

A favorite plant for beds or pot-culture; they thrive best in a cool shady place; half-hardy perennials; 3 in.

Snowball. Double pure white.....	Pkt., 10c.
Longfellow. Double pink.....	Pkt., 10c.
Double Mixed.....	Pkt., 10c.

MONSTROSA. These new Double Daisies surpass all strains of this popular plant in strong, robust growth and abundance of large blooms.

Monstrosa Alba. Snowy-white flowers.	Pkt., 25c.
Monstrosa Rosea. Deep rose.....	Pkt., 25c.
Monstrosa Mixed	Pkt., 25c.

Canterbury Bells

(Campanula Medium)

CALYCANTHEMA (Cup and Saucer). Produce beautiful large single flowers resembling a cup and saucer. Hardy biennial.

Blue. A clear shade.....	Pkt., 10c.
Alba. Pure white.....	Pkt., 10c.
Pink. Delicate rose-pink.....	Pkt., 10c.
Finest Mixed	Pkt., 10c.

SINGLE CANTEBURY BELLS. Bell-shape flowers, rich in color, profuse in bloom, and of easy culture, thriving best in light, rich soil with good drainage. Hardy biennial.

Dark Blue.....	Pkt., 10c.
Light Blue.....	Pkt., 10c.
Rose	Pkt., 10c.
White. A pure white.....	Pkt., 10c.
Single Mixed. ¼ oz., 25c.....	Pkt., 5c.
Double Mixed	Pkt., 10c.

Carnations

The Carnation has long been prized as a hardy border flower, and it certainly deserves all the praise lavished upon it. Being hardy, free-flowering, and easily grown either in flower-beds, borders, or pots, it is one of the most valuable and beautiful of our summer flowers and a favorite with every one. Plants raised from seed bloom more profusely than propagated plants, and are therefore to be preferred.

Chabaud's Everblooming. Blooms in the greatest profusion indefinitely; mixed colors.....Pkt., 25c.
Marguerite. A quick-flowering type; fine double flowers; mixed colors. Per ¼ oz., 40c.....Pkt., 10c.
Marguerite. Separate colors, Crimson, Pink, Striped, White, Yellow.....Pkt., each 10c.
Giant Marguerite. An improved form of the above, with very large flowers; mixed colors. Per ¼ oz., 50c.....Pkt., 15c.

Campanula (Bellflower)

These are among the best known hardy perennials. All have dainty bell-shaped flowers.

Carpatia. Color clear blue, grows 6 in. high, especially good for edging. ¼ oz., 40c.	Pkt., 10c.
Carpatia Alba. Pure white.....	Pkt., 10c.
Pyramidalis. Beautiful blue; 4 ft.....	Pkt., 10c.
Pyramidalis Alba. Pure white.....	Pkt., 10c.

Chrysanthemum

(Shasta and Moon-Penny Daisies)

The large-flowering single white hardy Daisy has long been considered one of our finest hardy perennials for permanent garden decorations.

King Edward. Large, pure white flowers 3 to 4 inches across. They are of splendid substance, and, having long stems, are highly prized for cutting, lasting in water fully a week.....Pkt., 10c.
Shasta Daisy. Very large, white single flowers on long stems.....Pkt., 15c.
Shasta Daisy "Alaska." This is the finest of all the Shasta Daisies, flowers of immense sizePkt., 25c.

Coreopsis

Lanceolata Grandiflora. A very hardy perennial blooming the first year and producing on long stems a succession of rich bright yellow flowers two to three inches across. Valuable for cutting; 2 ft. ¼ oz. 25c.Pkt., 10c.

Delphinium

(Hardy Larkspur)

One of our most showy and useful hardy perennial plants, possessing almost every requisite for the adornment of the garden, producing splendid spikes of flowers in profusion throughout the Summer.

Belladonna. This is one of the most freely and continuous blooming varieties. Immense spikes of lovely pale blue. 4 ft. Pkt., 20c.

Bellamosum. Rich deep blue flowers, with light centersPkt., 25c.
Elatum (Bee Larkspur). Rich blue of various shades with black centers. 4 ft. Pkt., 10c.

Hybridum, Finest Mixed. A great variety of charming colors.....Pkt., 15c.

MARGUERITE CARNATION

BUIST'S PRIZE PANSY

Digitalis (Foxglove)

Handsome and highly ornamental hardy perennial plant, of stately growth and varied colors; 3 ft.

Fine Mixed. $\frac{1}{4}$ oz., 25c.....Pkt., 5c.
Monstrosa. Splendid mixed.....Pkt., 10c.

Dianthus

(Hardy Garden Pinks)

Charming Summer flowering border plants more or less fragrant; should be planted in every garden.

Plumarius (Scotch Pinks, Pheasant's Eye, Grass Pinks). Pretty fringed, single flowers of various colors. $\frac{1}{4}$ oz., 30c...Pkt., 5c.

Plumarius Semperflorens, fl. pl. Double, sweet scented flowers of great beauty. All colorsPkt., 25c.
Double Scotch Pink. Colors beautiful. $\frac{1}{8}$ oz., 30c.....Pkt., 10c.

Gaillardia (Blanket Flower)

Splendid bedding plants, remarkable for the profusion and brilliancy of their flowers, continuing in beauty during the Summer and Autumn; half hardy; $1\frac{1}{2}$ ft.

Grandiflora Compacta. A compact variety bearing its varied colored flowers well above the foliage. $\frac{1}{4}$ oz., 40c....Pkt., 10c.
Grandiflora Copper-red. Yellow with red centerPkt., 20c.
Kermesina Splendens. Center crimson, canary-yellow border.....Pkt., 15c.
Grandiflora Superb Mixed, $\frac{1}{4}$ oz. 30c.
Pkt., 10c.

Gypsophila

Small, white flowers in sprays forming a misty effect above the plant; hardy perennial. Highly prized for cutting. 2 ft.

Paniculata (Baby's Breath). White flowers, fine for bouquets. $\frac{1}{4}$ oz., 25c. Pkt., 5c.
Paniculata Fl. Pl. The double flowering Baby's Breath, forming pretty little double white flowers.....Pkt., 20c.

Hibiscus (Marshmallow)

Showy ornamental perennial plants for mixed beds or shrubbery borders with large and beautifully colored flowers.

Moscheutos. Rosy-pink flowers. Pkt., 10c.
Giant Yellow or Golden Bowl. Flowers of a deep rich cream with a velvety maroon centerPkt., 10c.
Crimson Eye. Creamy white flowers with crimson center.....Pkt., 10c.
New Giant. Single flowers of enormous size in many colorsPkt., 15c.

Buist's Giant Pansies

PANSY.—This beautiful flower is too well known to need any description. Seed sown in the Autumn and kept in a cold frame through the Winter, and planted out in the Spring, will blossom freely the whole season. Sow the seed in drills, covering them not more than four times their diameter and firming the soil well above them. The seeds germinate in from eight to twelve days and should not be allowed to dry out during this period. As soon as the plants are up and large enough to handle they should be transplanted to stand nine inches apart in the rows. Pick off the buds as they appear during the Summer months; this will cause the plants to grow bushy and compact, and will bloom profusely during the late Autumn and early Spring months. The seed we offer has been saved from the most distinct and best-named imported varieties, and is unsurpassed for size and form, beautiful markings, brilliancy of colors and shadings. The higher price sorts produce the largest flowers. Hardy perennial, but usually grown as an annual or biennial.

Hollyhock

This splendid plant vies with the Dahlia for Summer decorations, and from its stately growth and the varied colors of its magnificent spikes of flowers, may justly claim a place in every garden or pleasure ground; hardy perennial; 6 ft.

Double White. $\frac{1}{4}$ oz., 40c. Pkt., 10c.

Double Pink. $\frac{1}{4}$ oz., 40c. Pkt., 10c.

Double Salmon Rose. $\frac{1}{4}$ oz., 40c. Pkt., 10c.

Double Yellow. $\frac{1}{4}$ oz., 40c.....Pkt., 10c.

Double Maroon. $\frac{1}{4}$ oz., 40c.....Pkt., 10c.

Double Red. $\frac{1}{4}$ oz., 40c.....Pkt., 10c.

Choice Mixed. $\frac{1}{4}$ oz., 40c.....Pkt., 10c.

Allegheny Fringed. The flowers are either double or semi-double, the petals are beautifully fringed. All shades and colors are represented. $\frac{1}{4}$ oz., 40c.....Pkt., 10c.

Iberis (Hardy Candytuft)

Dwarf evergreen plants, covered with blooms in Spring and early Summer. Thrives anywhere in shade or sun; 9 in.

Sempervirens. Pure white.....Pkt., 10c.

Lobelia

Cardinalis (Cardinal Flower). Hardy perennial, with spikes of brilliant scarlet flowers, very showy; 3 ft.....Pkt., 15c.

Lupinus (Lupine)

Most beautiful hardy border plants succeeding in any rich garden soil; bloom in May and June. 3 ft.

Polyphyllus. Mixed colors. 3 to 4 ft. Pkt., 5c.

Myosotis (Forget-Me-Not)

Neat and beautiful little plants with star-like flowers; succeeds best in a shady situation; for in or outdoor planting; half-hardy perennials, blooming the first year from seed; 6 in.

Alpestris. Bright blue.....Pkt., 10c.
Palustris. True Forget-Me-Not.....Pkt., 10c.

Pyrethrum

Very showy flowers of easy cultivation; valuable for cutting. The daisy-like blossoms borne in great abundance and a variety of colors. One of the best hardy perennials.

Roseum Hybrid Grandiflorum.....Pkt., 25c.
Double Fine Mixed. 18 in.....Pkt., 25c.
Finest Single Mixed.....Pkt., 10c.

Poppy (Perennial)

Poppies when once planted will last for all time. They differ from the annuals in the original root living and increasing in size and not from being self-sown from seed dropped the previous year.

Hardy Oriental Poppies. Oriental Poppies rival in gorgeous beauty the Darwin Tulips and are one of the showiest, most effective flowers grown; height, 2 to 3 ft., flowers immense; often six inches or more across.

Orientele. Bright scarlet with black blotch. $\frac{1}{4}$ oz., 30c.....Pkt., 10c.
Orientele Mixed Hybrids. Mixed colors. $\frac{1}{4}$ oz., 50c.....Pkt., 10c.

Iceland Poppies. Although hardy perennials, these dwarf poppies bloom the first season from seed sown early in Spring. Plants are of graceful, neat habit with fern-like foliage producing their brilliant fragrant flowers in profusion, and, if the seed pods are picked off, continue to flower the entire season.

Yellow. $\frac{1}{8}$ oz., 30c.....Pkt., 10c.

Orange. $\frac{1}{8}$ oz., 30c.....Pkt., 10c.

White. $\frac{1}{8}$ oz., 30c.....Pkt., 10c.

Finest Mixed. $\frac{1}{8}$ oz., 25c.....Pkt., 10c.

Buist's Giant Pansies

Buist's Prize Pansy. This strain of Pansy comprises a collection of the most beautiful colors and markings. Each year we add the latest Giants. The Buist Prize is unsurpassed as regards size, texture and colorings. $1\frac{1}{16}$ oz., \$1.50; 5 pkts., \$1.00. Pkt., 25c.

Bugnot's Superb Blotched. An incomparable strain; extremely large, three blotched flowers, upper petals finely lined. $\frac{1}{8}$ oz., \$1.00.....Pkt., 25c.

Madame Perret. A splendid giant-flowered strain, comprising all shades of red from light rose to dark purple. $\frac{1}{8}$ oz., 75c. Pkt., 25c.

Masterpiece. Giant Ruffled. Nearly all the plants produce beautifully ruffled flowers of large size and very fascinating colors. $\frac{1}{8}$ oz., \$1.00.....Pkt., 25c.

Giant Orchid Flowered Mixed. A splendid and quite distinct race, showing remarkable combinations of all colors, including shades of chamois, terra-cotta, pink, orange, etc. 5 Pkts., \$1.00.....Pkt., 25c.

Triumph of the Giants. New class with exceptionally large beautifully frilled and waved flowers. Finest mixed. $\frac{1}{8}$ oz., \$1.50.Pkt., 25c.

Buist's Superb Mixture. A blend of the finest strains including a large variety of the richest colors. $\frac{1}{4}$ oz., 75c.....Pkt., 10c.
Fine Mixed. All colors. $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz., 90c.....Pkt., 5c.

GIANT TRIMARDEAU PANSIES. Very showy class, of vigorous and compact growth and enormously large flowers; the form and colorings are of the most beautiful type, each flower has three large blotches.

Adonis. Light blue.....Pkt., 15c.
Brilliant. Fiery red with dark spots. Pkt., 15c.

Dark Blue. Ultramarine blue.....Pkt., 15c.

Bronze. Golden bronze.....Pkt., 15c.

Fairy Queen. Azure blue.....Pkt., 15c.

Cardinal. Brilliant red.....Pkt., 15c.

Faust. (King of the Blacks).....Pkt., 15c.

Lord Beaconsfield. Violet.....Pkt., 15c.

Meteor. Bright terra-cotta.....Pkt., 15c.

Peacock. Blue flowers edged with white. Pkt., 15c.

Victoria. Blood-red.....Pkt., 15c.

White. With dark eye.....Pkt., 15c.

Yellow. With dark eye.....Pkt., 15c.

COLLECTION OFFER. A packet each of the above 13 named varieties of Giant Pansies mailed for \$1.50.

Giant Trimardeau Mixed. All colors. $\frac{1}{4}$ oz., 75c.....Pkt., 10c.

WHITE SWEET PEAS

Spencer Sweet Peas

This strain includes the largest and most beautifully formed Sweet Peas, truly gigantic in size, measuring 2 to 2½ inches across. They are beautifully formed with huge standards, open and upright, and immense wings gracefully poised. Both standards and wings are delicately waved; the undulations reflecting lights and casting shadows in the depths, thus showing varied harmony of tones which greatly enhances the coloring. Three and often four of these handsome blossoms are borne on long, strong stems, rendering them available as cut flowers for vases, bouquets and other decorations.

Blue and Purple

Mrs. Tom Jones. A clear Larkspur blue.
Royal Purple. Rich purple.
Wedgwood. A clear slivery blue.

Lavender

Austin Frederick. Rich lavender.
Florence Nightingale. Beautiful clear lavender.
R. F. Felton. Lilac lavender.

Maroon

Othello. Rich deep maroon.
Warrior. Maroon, flushed with bronze.

Orange and Salmon Pink

Helen Lewis. Orange pink.
Illuminator. Rich salmon pink.
Margaret Atlee. Light salmon pink.
Mrs. A. Hitchcock. Charming shade of soft pink on cream ground.

Pink Shades

Apple Blossom. Standard bright rose, wings primrose.
Blanche Ferry. Pink and white.
Countess Spencer. A lovely clear pink.
Elfrida Pearson. Blush-pink.
Hebe. A rich clear rosy pink, flowers very large.

Primrose, or Light Yellow

Dobbie's Cream. Primrose-yellow.
Primrose Spencer. Light yellow.

White

Constance Hinton. Large white.
King White. Gigantic flowered.
White Spencer. Pure white.

Buist's Prize Sweet Peas

Splendid results can be obtained in the Southern States by sowing in the Fall or early Winter; the plants become well established, the root growth is stronger, so it carries a plant through a dry season better and seasons of blooming are prolonged.

The sowing of Sweet Peas in the North is growing in popularity; they may be planted outdoors in late November or December before the ground is frozen, so that germination may take place in the Spring before the ground is in condition to work. A perfectly drained soil should be selected. Dig a trench six inches deep, in this sow the seed and cover two inches, and, by degrees, as the vines grow up, fill the trench with soil, and thin to about two or three inches apart. Sweet Peas should not be grown in same soil year after year.

Scarlet

Fiery Cross. Fiery scarlet.
King Edward. Rich carmine scarlet.
Royal Soot. Brilliant scarlet.
Thomas Stevenson. Orange scarlet.

The President. Rich and dazzling bright orange scarlet, its color equalling the Oriental Poppy.

PRICE—Any of the above, 10c. per Pkt.; ½ oz., 15c.; per oz., 30c.; per ¼ lb., \$1.00.

SPECIAL OFFER.—Eight packets of the above Prize Spencer Sweet Peas—your selection—50c.

Buist's Prize Spencer Mixture. A matchless combination of the most beautiful colors and gigantic in size. Pkt., 10c.; ½ oz., 15c.; oz., 25c.; ¼ lb., 75c.; lb., \$2.50.

Buist's Prize Grandiflora Mixture. Only the very finest large flowering grandiflora type are used in preparing this mixture. Pkt., 5c.; ½ oz., 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.50.

Early and Winter Flowering Sweet Peas

A distinct class that has become popular for greenhouse forcing. Also for sowing in late Autumn in the Southern States. They bloom in about three months from time of sowing.

Aviator. Dazzling crimson-scarlet.
Bright and Early. Orange-scarlet.
Christmas Carol. Salmon-pink.
Glitters. Bright cerise scarlet.
Hercules. Clear pink, very large.
Meadow Lark. Rich cream.
Nightingale. Blue lavender.
Morning Star. Orange-scarlet.
Rose Queen. Soft pink.
Snowflake. Pure white.
Spring Maid. Light cream.
Early Yarrowa. Bright rose-pink.
Price. Any of the above Winter flowering varieties. ½ oz., 35c.; oz., 60c. Pkt., 10c.
Collection. A packet each of the above 12 Early Winter Flowering varieties, \$1.00.
Mixed Early and Winter Flowering. A mixture of all the above colors. ½ oz., 30c.; oz., 50c.; ¼ lb., \$1.50....Pkt., 10c.

Schizanthus (Butterfly Flower)

This is one of the most charming flowers for the garden in Summer and for the house in Winter.

Dwarf Large-Flowered. A new variety, forming pyramidal plants a foot high covered with beautiful orchid-like flowers of many shades.....Pkt., 15c.

Wisetonensis. Enormous range of charming colors, ranging from creamy white with yellow center to carmine rose with brown center; 1½ ft.....Pkt., 15c.

Scabiosa

This hardy perennial should be in every garden. Various-colored flowers on long stems; splendid for cutting.

Caucasica (Blue Bonnet). 3 ft..Pkt., 15c.
Japonica. Lavender blue flowers. Pkt., 10c.

Stokesia

(Cornflower Aster)

A beautiful hardy perennial plant that no garden should be without. It is of the easiest culture, blooming the first year from seed, and succeeding in any open sunny position. The plants grow from 18 to 24 inches high and begin flowering in July, continuing without interruption till late in October. The flowers, 4 to 5 inches across on long stems, are valuable for cutting.

Cyanea. Light blue.....Pkt., 10c.
Alba. Pure white.....Pkt., 10c.
Cyanea Mixed.....Pkt., 10c.

Sweet William

A well-known, free-flowering, hardy perennial, producing a splendid effect in beds, mixed flower and shrubbery borders; 1½ ft.

Single White.....Pkt., 5c.
Single Crimson.....Pkt., 5c.
Pink Beauty. Single.....Pkt., 10c.
Scarlet Beauty. Single.....Pkt., 10c.
Single Mixed. ¼ oz., 20c.....Pkt., 5c.
Double Mixed. ¼ oz., 30c.....Pkt., 5c.
